🗂 PROJECTS

Portfolio Website ⇗

A mobile and tablet-friendly website made using HTML CSS and Javascript. It included the pages for home, about, projects, and contact. It has light and dark mode options. Used multiple theme and color options using HTML and CSS.

To Do List ⇗

The main aim of the project is to provide a paper-less Note management system where we can add notes, delete already added notes and search them as well by using HTML, CSS, JavaScript, Bootstrap.

HOSPITAL MANAGEMENT SYSTEM(C++)

The main aim of the project is to maintain the details about the patient medical history and create its unique patient Id and store the patient details in the file so that later it can be fetched and accessed.

🎖 ACHIEVEMENTS

4 star Codechef (1880 Max Rating)

University Rank 3 Geeks For Geeks

Solved 400+ coding questions on GeeksForGeeks.

📜 CERTIFICATES

Data Structure and Algorithms
(GeeksForGeeks)

C++ (Hacker Rank)
